DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 12 "gas permeable" has been changed to --gas-permeable--.

Allowable Subject Matter

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest either alone or in combination a combined component for a fuel cell as recited by claim 1, particularly the exhaust gas catalyzer having the gas-permeable inner tube arranged coaxially with the long axis of the casing affixed to the casing cover and the gas-permeable outer tube disposed coaxially with the long axis of the casing joined to the casing cover, wherein the catalyst material is in the area between the inner and outer tube for the catalytic oxidation of the anode exhaust gas; and the evaporator disposed between the inner tube and the outer tube.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art of record that is cited as of interest is presented on the form-892.
